## OBJECTIVE

Enthusiastic and motivated Software Development Intern with a strong foundation in Computer Science, including 1 Year of industry experience in Java and web development. Passionate about contributing to impactful projects. Seeking an opportunity as an Intern Role, where I can leverage my skills and experience to contribute to the advancement of technology solutions.

## EXPERIENCE

### Solution Engineer Intern

@ [FICO](#)

Jan 2023 - June 2023

FICO, Bengaluru, Karnataka 560017

- Played a key role in the BBL live project, with a focus on coding, realization, and testing of the system, while integrating existing modules into components, fostering team goals and positive work culture.
- Developed solutions using Java (SE & EE), Spring Boot, SQL, HTML, CSS, JavaScript.
- Integrated existing/purchased modules into subsystem components, enhancing efficiency.
- Supported issue investigation, maintenance, complaints handling, and software lifecycle;
- Received industry training in both C++ & Java, equipping me with practical skills.

### Full Stack Developer Intern

@ [Servitude](#)

Dec 2021 - Mar 2022

Servitude, Gautam Budha Nagar Uttar Pradesh 201306

- Successfully contributed to the development of the Solid Waste Management Project, applying proficiency in web technologies including React with Material UI, JavaScript, HTML, and CSS.
- Showcased a keen focus on consumer needs and technological competitiveness.
- Actively participated in the entire project lifecycle, from conceptualization to implementation, showcasing hands-on understanding of modern frontend technologies.
- Collaborated effectively with the team to ensure seamless integration of design & functionality, while also contributing ideas to enhance user experience, project efficiency & Gained leadership experience.

### Jaipur Smart City Intern

@ [Servitude](#)

Jul 2021 - Sept 2021

Jaipur Nagar Nigam, Lalkothi, Jaipur, Rajasthan 302015

- Web Developer and Research Assistant at Smart City Limited.
- Created responsive web applications with HTML, CSS, and JavaScript, improving UI and functionality.
- Contributed to vital urban research, aiding in data collection and design for technology-driven solutions.
- Led successful deployments and played a pivotal role in foundational Smart City project research.

## SKILLS

### Programming Languages

- Skilled in programming with C++, Core Java and intermediate expertise in Java EE (Spring Framework) with practical application across over three industry projects.
- Expert Problem Solver (Data Structures & Algorithms) - Conquered 270+ Leet Code C++ Challenges.

### Web Technologies

- Proficient in HTML5, CSS with a focus on Tailwind, and JavaScript, along with hands-on experience in React.js (Material UI) and Bootstrap framework in live projects.

### Database

- Experienced in DBMS with a robust command of SQL queries (DDL, DML, Joins etc.) .I've effectively applied these skills in three live projects.

### Software Development

- Familiar with Concepts of SDLC (Plan, Design, Develop, Test, Deploy, Maintain), OOPS, Agile.
- Programming /Debugging in C++/Java Backed by industry experience.
- Intermediate Knowledge of Compiler design & development in Operating system such as Unix, Linux.

### Essential Skills/Core Professional Competencies

- Strong analytical and technical skills, customer-first attitude ,adept problem-solving, effective communication(English reading and writing) ,team player, eager to learn, Leadership experience and a strong passion for technology.

## PROJECTS\_

### FICO Loan Origination

[@Link](#)

- Java EE Project: Wavemaker Loan Application is a powerful borrowing solution developed using Advanced Java (Spring Boot framework), JavaScript, SQL/PLSQL, HTML, and CSS technologies.
- It provides borrowers with a diverse range of loan options for personal, business, and educational needs and robust platform to explore, select, and apply for various loan options.

### CodeRep Live Code Editor

[@Link](#)

- React Project: web app for real-time front-end development. Utilizes HTML, CSS, and JavaScript with live rendering. Features include saving, showcasing, exporting, and sharing codebases and live results online.

### Student Record Management System

[@Link](#)

- C++ Project: Helps manage students data & info efficiently such as personal info, academic records & rollno.
- It facilitates data retrieval, updates, and deletion, utilizing object-oriented programming principles.

### E- Store

[@Link](#)

- Java Advance Project: Final Year College Project: Online Shopping Platform using Advanced Java Stack (JSP, Servlets) and IDE (Eclipse).
- Created online shopping platform with user authentication, dynamic shopping cart, and order tracking functionalities.

## CERTIFICATE

FICO Training Certification ( Java, C++, HTML, CSS, JavaScript)
